**All of these good Polled Short-
horns sell at Kinkeri December 6.**

Virginia Welch at the halter of her champion female at the 1968 Inland Empire Show and Sale.

Welcome to Kinkeri

Times and circumstances change and so we are forced to drastically reduce the Kinkeri herd. Health and labor problems require that we maintain far fewer Polled Shorthorns than we have in the past so this sale will be a near-dispersion.

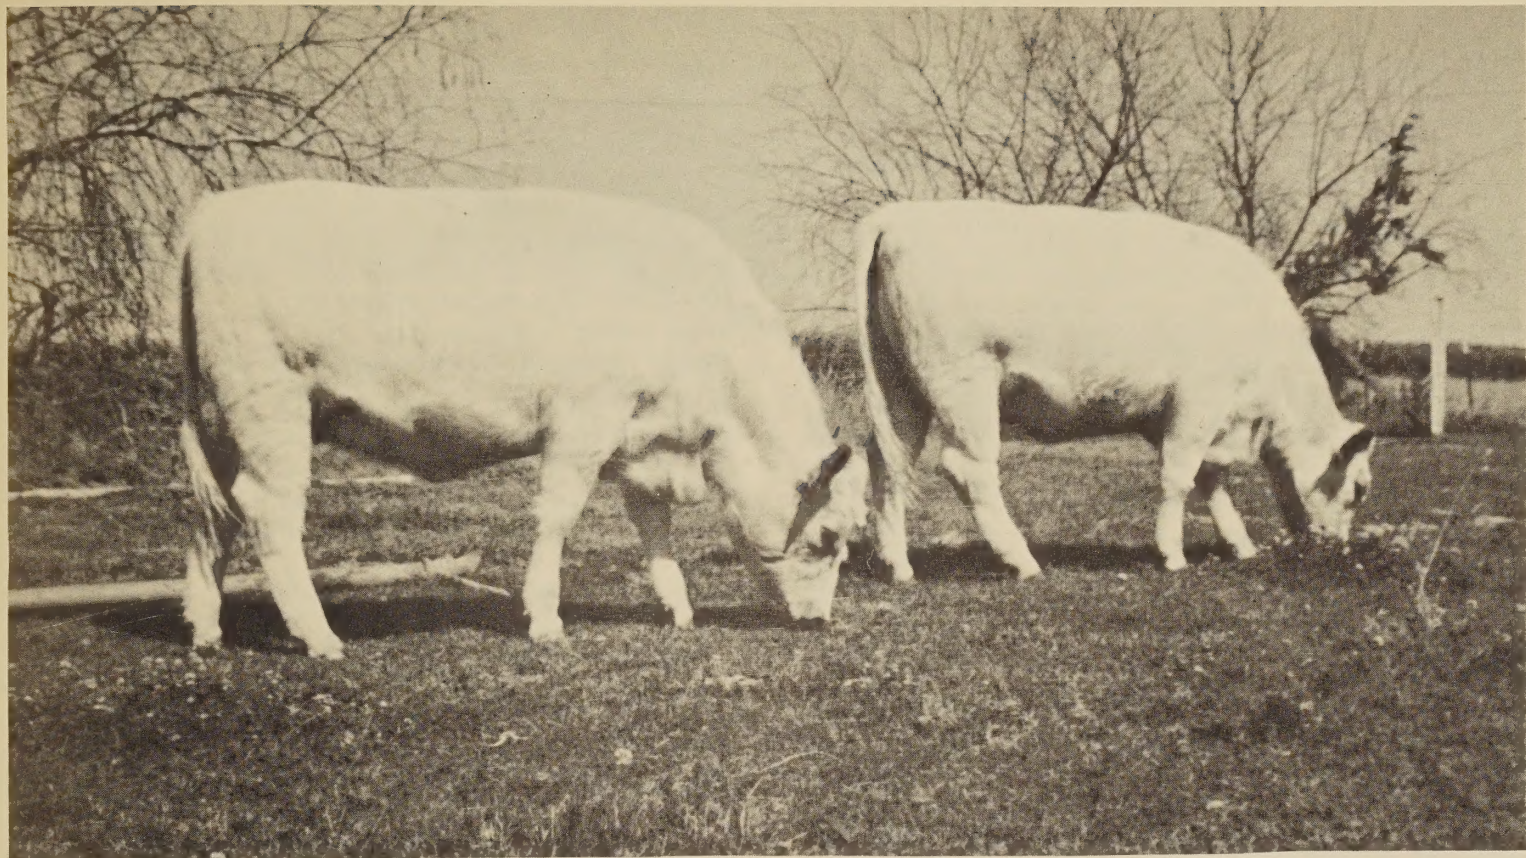

We are not, however, going out of business completely. About 10 brood cows will be retained together with those remaining after the "Buyer's Choice" lots. Please do not infer that we are keeping all the good ones. We're not, but it is a temptation. The keepers have been chosen as representatives of good families that have been prolific and profitable for us.

In three cases, the "Buyer's Choice" lots, we've entered both mother and daughter. The buyer will make his choice and we'll keep the other one. Frankly, we don't care which you choose. Both are good and either one will do well either for you or for us.

We are proud of our Polled Shorthorns and we're proud to be a part of the business. Be with us on December 6 to share in the herd we've worked so hard to build. We're confident they'll do well for you.

Sincerely,

Cloyd & Virginia Welch

These are daughters of Thomas Leader 41X x at Kinkeri. They sell December 6.

The Kinkeri Kind

Kinkeri has long been known as a leader in the Pacific Northwest. Their cattle are the big, bold western kind that grow and do well for others. A recent example is Kinkeri Priceless Secret x that was grand champion of the New York State Fair for Howard Snethen just days after making the transcontinental journey.

That Kinkeri cattle are well accepted is proved by their long list of championships and sale tops in the western sales and, more important, by their long list of repeat buyers.

It is unfortunate that the herd now must be so drastically reduced, but it will be an important day for astute buyers. These are the kind only dispersions make available.

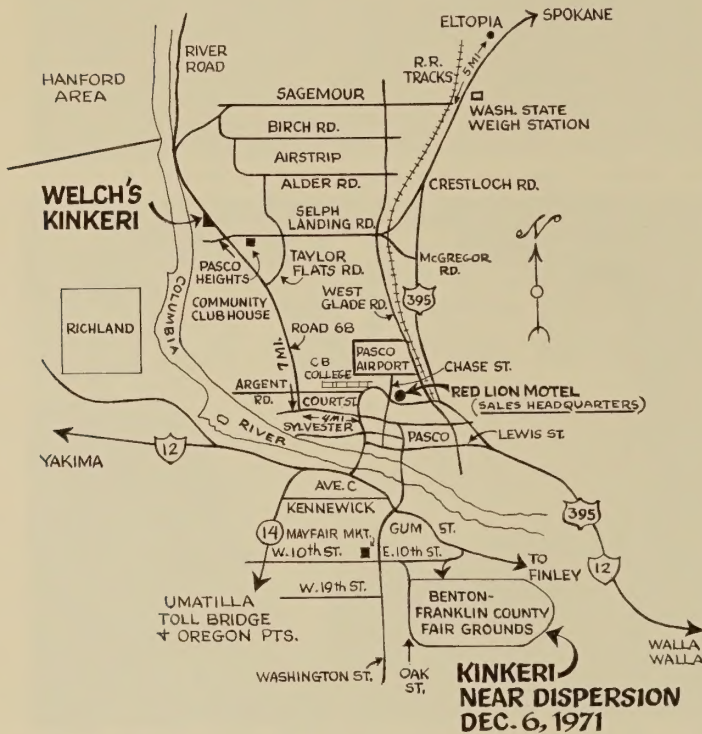

Kinkeri is joined in this sale by as fine a group of guest consignors as you could ask. They are selling top cattle and you can find many good investments among them.

Come early if you can. It's big, beautiful country, and the cattle deserve your most serious consideration.

HARRIS SIMONS
The Shorthorn World

Kinkeri Priceless Secret x sold to T. Howard Snethen, Dewittville N. Y., and was grand champion of the 1971 New York State Fair shortly after making the transcontinental journey. Her dam and a full-sister are cataloged.

Transportation

THOMAS LEADER 41X x — This long white son of Coronet Max Leader x, from a Carona Perfect x dam, has proved to be the best investment we have ever made. We purchased him at the Thomas Farms first production sale. He was just under 13 months old on sale day and had made the highest gain per day on 140-day test of any of the English breeds at Douglas, and only two in the group of Charolais were slightly above him. He is sound, very gentle, and has been a sure breeder.

The 41st x is trim, has adequate thickness throughout, and is particularly good in the rear end. He was unofficially measured recently by a disinterested person, and measured 67" from point of shoulder bone to rump, with a length of 25" from hooks to pins. He is not the tallest bull in the country, measuring 55½" at shoulder, but he is one of the trimmest big bulls we have ever seen.

Very few of his sons and daughters have been shown, as we have neither the time nor the necessary help to get out a show string, but wherever they have gone they have done well. The first one ever to go east of the Canadian Rockies was the big white Kinkeri Pasco Leader x that sold to Deason, Ft. Cobb, Okla., that did so well in the various shows and was elected All-American senior yearling. We will only have about six cows left in the herd unrelated to him; the other half-dozen will be his daughters. We wish to retain one-third interest and offer two-thirds interest and possession.

FOUR DEES CROWN x, Lot 2.

FOUR DEES CROWN x — We purchased this bull at 14 months of age for \$2,000. We like his bone and length. His first six calves to date have all been polled. We have semen stored and wish to retain an interest.

KINKERI SECRET PRIDE x — The last calf out of a good old cow that we lost last winter. She was the foundation cow of our Secret family. All the Secrets we have sold or retained started from the dam of this bull. KINKERI MAJORITY LEADER — This is quite a bull calf, even though he came with horns. He is a full-brother to the grand champion heifer at the Western Oregon-Washington show and sale in Chehalis, April 3, 1971. A full-brother was reserve champion at Spokane in February 1970. His actual weight on September 16 was 590 pounds; adjusted to 205 days at 560 pounds, and he grades 14 plus.

KINKERI LEADER WILDFIRE x — Outstanding since he first hit the ground, he is truly a herd sire prospect for the best of herds. He is the second calf out of the heifer, Princess Pandora x, that we considered the best Wildfire x daughter we had. The first calf, a full-brother, is the white polled bull, Kinkeri Christopher x, that has been grand champion at three out of four Eastern Washington and Oregon shows recently, and reserve champion at the other. Kinkeri Leader Wildfire x is a three-quarter brother to Howard Snethen's Queen's Leader x, and to Kinkeri Leader x, grand champion at the Klamath Falls all-breed sale. Kay Haley recently selected another three-quarter brother, Kinkeri Leader 2nd x, for her ranch in Ventura, Calif. Leader Wildfire x graded 16 on September 16, which is as high a grade as is ever given, 17 being perfect. His actual weight was 602 pounds; adjusted to age of dam and 205 days, 608 pounds. The calves had been started on limited feed about two weeks previous to weighing . . . about two pounds per head a day of mixed grain and a little hay. We'll have his weight gain for you on December 6. We think he is a great calf and believe you'll like him as well as we do.

KINKERI BULL BABY x — This is the first bull calf out of our Kinkeri Snow Queen x, and the favored twin; consequently at weaning he was the larger of the two. His dam considered this one her own calf; she seemed to think the other was something she could put up with as long as the first one was there at mealtime too. He weighed 480 pounds on September 16, 1971. We'll have his weight for you on December 6.

KINKERI JUPITER — This good white bull arrived with horns, but seven out of eight of his great grandparents were polled, so we believe you should get mostly polled calves from him. He is a three-quarter brother to the Burocher bull that is doing so well in the shows this year. His adjusted 205-day weight is 500 pounds, and he graded 14 plus.

SAN LAR EMPHASIS x — We are offering full possession of our junior herd sire. He is a 100% dehorner, bred by J. W. Bennett, bought in dam at the Hilldale Dispersion in 1967. His dam, Hilldale Comet Beauty, is out of the Bennett's famous Beauty cow family. Note his good muscling, which is being passed along to his calves. ROYAL HIGH WEIGH x — We feel this is the kind of bull that will grow to be as big as his sire, Rondelay Olympus x, that weighed 2,350 pounds in his prime and stood over 60" at the rump. He has the things everyone is talking about - - longer legged, longer headed, and extremely clean. He's out of a dam by Hi Way Captivator x, also a ton bull. Killer x (Royal High Weigh x) has won his class at three fairs to date, being named grand champion at the Southwest Washington Fair. He stands 51" high at the rump. KINKERI SNOW QUEEN x — This is a wonderful female. Her first calf, born in 1967, was grand champion heifer in the 1968 Inland Empire Show and was purchased by Drew Jensen, former Western ASA fieldman. He told us she had grown into a grand brood cow. Her second calf was Bill Bennett's choice of our heifers that year; her third heifer was reserve grand champion at Spokane last spring and topped the female sale going to Bud Warners, Polson, Mont. Twin polled white bulls this year make her record six calves in six years, and she has raised them all. She is A. I. bred to Butte Lee Leader 63rd x (Tiny Tim x). The registration fee has been paid to the ASA, and we will take care of the other papers to register the calf. Her twins weaned at the combined weight of 890 pounds on Sept. 16, 1970, lacking four days of being seven months of age.
